SEWER TIE IN INSTRUCTIONS

The following are the requirements for the East Miramar sewer tie in:

1. Property owners must obtain approval from the Broward County Development and Environmental Regulation (DER), located at 1 North University Drive, Suite 102, Plantation, FL 33324, (954) 357-6666; prior to requesting a Building Permit. The following forms (**a. & b.** attached – **c.** not attached) must be completed and submitted to DER for approval along with the “Notice to Connect” letter from the City of Miramar and legal description of the property:
 - a. **Information For Environmental Review Approval Form**
 - b. **Environmental Review Plan Substitution Form**
 - c. ****Industrial Review Form**: this form is for **commercial properties only** and is not included since it is a carbon copy form. It must be obtained from the DER office and completed there.
2. *The Notice of Commencement, which must be filed for permits with a job value that exceeds \$2500, can be filed at this time and brought in with the Building Permit application.*
3. After obtaining DER approval, the property owner must obtain a permit from the City’s Building Division, by completing and submitting the **Plumbing Permit Application** form (attached) **with** a copy of the receipt from DER and all other required documents on the Sewer Tie-In checklist. The Building Permit application **must be submitted within 30 days** of receiving DER approval (stamp) or the DER approval will be invalid.
4. When the permit is issued, the septic tanks are to be pumped out and holes are to be punched in the bottom. Enough clean fill must be put on the job site to fill the septic tank and to bed and backfill the sewer. The sewer connection must also be completed with a minimum depth of 12” to the top of pipe (the top of the pipe must be visible at the time of inspection). At this time a Sewer Connection inspection (438) should be requested. A Septic Tank Abandonment (446) inspection should be requested either at the same time as the Sewer Connection (438) or after.
5. On the day of the inspection, homeowners do **not** need to be home as long as the permit card and all necessary paper work are posted on the job site. If there are any animals on the property, they must be kept inside on that day. If the yard is fenced in, the gate must be unlocked.
6. After the 438 and the 446 inspections are successfully completed the septic tank must be filled with the clean fill, all clean outs must be brought up to grade, the sewer lines and septic tank must be backfilled and a final inspection (999) must be requested in order to close the project. The same requirements in # 4 above, apply on the day of the inspection.

NOTICE: In addition to the requirements of this permit, there may additional restrictions applicable to this property that may be found in the public records of this county.

This permit does not become valid until signed by the Building Official (or designated employee) of the City of Miramar and all fees are paid.

Authorized Signature

Plans & permit must be on job before inspection will be made. For new constructions (Commercial & Residential) and Commercial Interior Build-out, a Certificate of Occupancy shall be obtained from Building Division before using completed Building.

CITY OF MIRAMAR • COMMUNITY DEVELOPEMT • BUILDING DIVISION
OWNER-BUILDER DISCLOSURE STATEMENT

YOU HAVE MADE APPLICATION FOR A BUILDING PERMIT AS AN OWNER-BUILDER. STATE LAW REQUIRES CONSTRUCTION TO BE DONE BY LICENSED CONTRACTORS. YOU HAVE APPLIED FOR A PERMIT UNDER AN EXEMPTION TO THAT LAW. PLEASE BE ADVISED OF THE FOLLOWING PROVISIONS AS PER FLORIDA STATUTES F.S. 489 .103(7).

1. I understand that state law requires construction to be done by a licensed contractor and have applied for an owner-builder permit under an exemption from the law. The exemption specifies that I, as the owner of the property listed, may act as my own contractor with certain restrictions even though I do not have a license.
2. I understand that building permits are not required to be signed by a property owner unless he or she is responsible for the construction and is not hiring a licensed contractor to assume responsibility.
3. I understand that, as an owner-builder, I am the responsible party of record on a permit. I understand that I may protect myself from potential financial risk by hiring a licensed contractor and having the permit filed in his or her name instead of my own name. I also understand that a contractor is required by law to be licensed in Florida and to list his or her license numbers on permits and contracts.
4. I understand that I may build or improve a one-family or two-family residence or a farm outbuilding. I may also build or improve a commercial building if the costs do not exceed \$75,000. The building or residence must be for my own use or occupancy. It may not be built or substantially improved for sale or lease. If a building or residence that I have built or substantially improved myself is sold or leased within 1 year after the construction is complete, the law will presume that I built or substantially improved it for sale or lease, which violates the exemption.
5. I understand that, as the owner-builder, I must provide direct, onsite supervision of the construction.
6. I understand that I may not hire an unlicensed person to act as my contractor or to supervise persons working on my building or residence. It is my responsibility to ensure that the persons whom I employ have the licenses required by law and by county or municipal ordinance.
7. I understand that it is a frequent practice of unlicensed persons to have the property owner obtains an owner-builder permit that erroneously implies that the property owner is providing his or her own labor and materials. I, as an owner-builder, may be held liable and subjected to serious financial risk for any injuries sustained by an unlicensed person or his or her employees while working on my property. My homeowner's insurance may not provide coverage for those injuries. I am willfully acting as an owner-builder and am aware of the limits of my insurance coverage for injuries to workers on my property.
8. I understand that I may not delegate the responsibility for supervising work to a licensed contractor who is not licensed to perform the work being done. Any person working on my building who is not licensed must work under my direct supervision and must be employed by me, which means that I must comply with laws requiring the withholding of federal income tax and social security contributions under the Federal Insurance Contributions Act (FICA) and must provide workers' compensation for the employee. I understand that my failure to follow these laws may subject me to serious financial risk.
9. I agree that, as the party legally and financially responsible for this proposed construction activity, I will abide by all applicable laws and requirements that govern owner-builders as well as employers. I also understand that the construction must comply with all applicable laws, ordinances, building codes, and zoning regulations.
10. I understand that I may obtain more information regarding my obligations as an employer from the Internal Revenue Service, the United States Small Business Administration, the Florida Department of Financial Services, and the Florida Department of Revenue. I also understand that I may contact the Florida Construction Industry Licensing Board at **(850)487-1395** or <http://www.myfloridalicense.com/dbpr/pro/cilb/index.html> for more information about licensed contractors.
11. I am aware of, and consent to, an owner-builder building permit applied for in my name and understand that I am the party legally and financially responsible for the proposed construction activity at my property address .
12. I agree to notify immediately of any additions, deletions, or changes to any of the information that I have provided on this disclosure.

Licensed contractors are regulated by laws designed to protect the public. If you contract with a person who does not have a license, the Construction Industry Licensing Board and Department of Business and Professional Regulation may be unable to assist you with any financial loss that you sustain as a result of a complaint. Your only remedy against an unlicensed contractor may be in civil court. It is also important for you to understand that, if an unlicensed contractor or employee of an individual or firm is injured while working on your property, you may be held liable for damages. If you obtain an owner-builder permit and wish to hire a licensed contractor, you will be responsible for verifying whether the contractor is properly licensed and the status of the contractor's workers' compensation coverage. Before a building permit can be issued, this disclosure statement must be completed and signed by the property owner and returned to the local permitting agency responsible for issuing the permit. **A copy of the property owner's driver license, the notarized signature of the property owner, or other type of verification acceptable to the local permitting agency is required when the permit is issued.**
